Project Design Phase-I
Solution Architecture

Date	19 October 2022
Team ID	PNT2022TMID03273
Project Name	Project – Personal Expense Tracker Application
Maximum Marks	4 Marks

Solution Architecture:

The following image shows the architecture and workflow of Personal Expense Tracker.

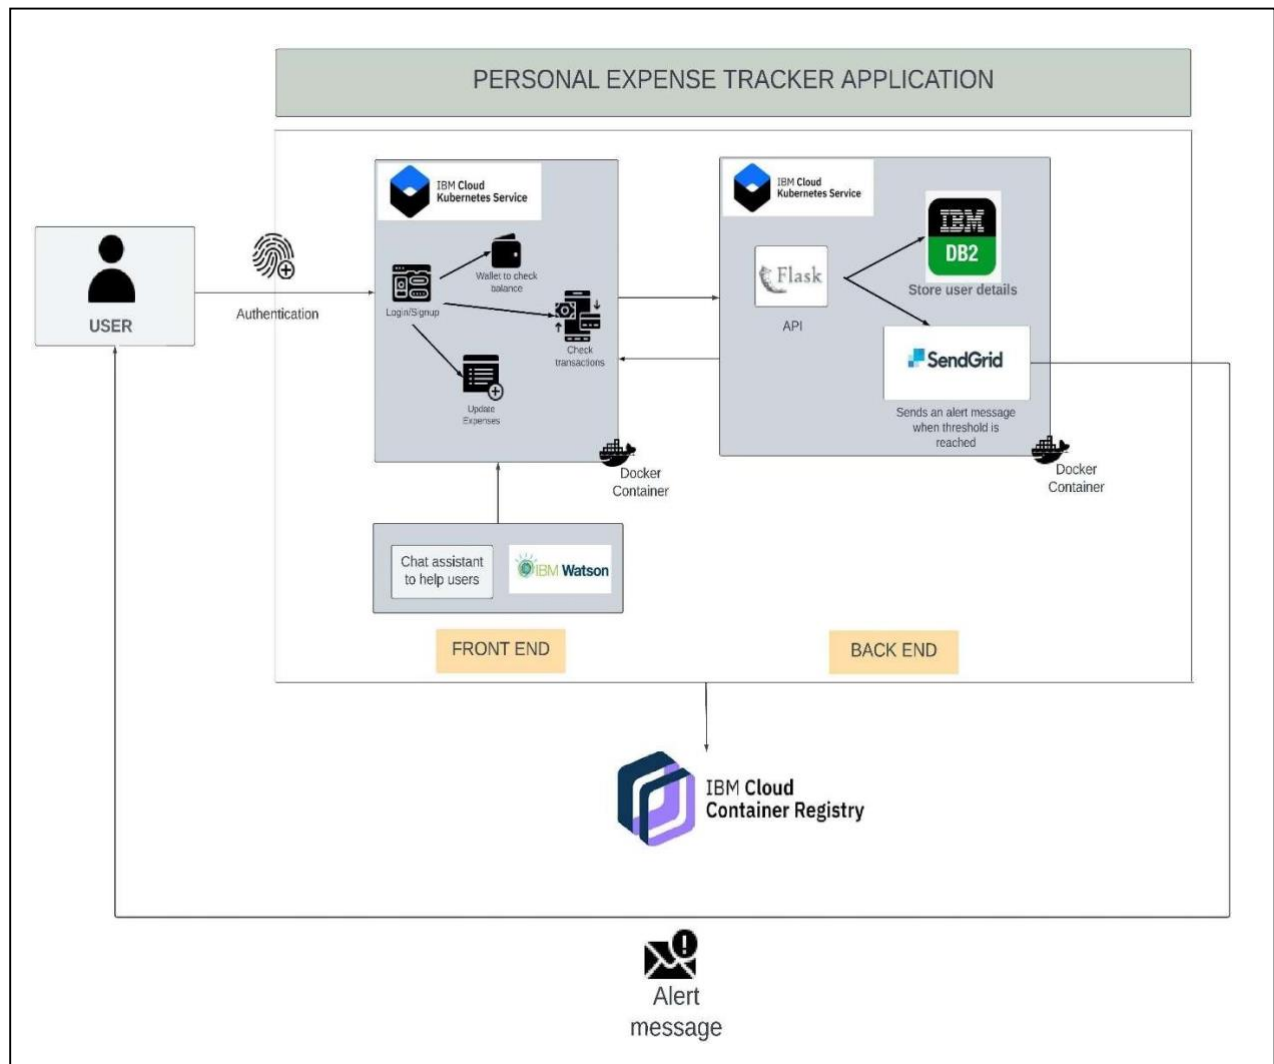

Figure 1: Architecture of Personal Expense Tracker Application

The application helps the user in many ways:

- It helps to keep record of the user's expenses
- It keeps record of transactions
- It has chat assistant to help the user with questions
- It also sends an alert message when the user exceeds a certain threshold limit
